

AirPhoton's Division of Air Quality and Exposure Science,
in partnership with Diamond Medical Laboratories,
are pleased to announce our new
Airborne Covid-19 Indoor SPAce SCrEening Program (AIRSPACE)

Aerosols
Infection control
Respiratory protection programs
Screening for airborne pathogens
Public and staff health and safety
Assessment of Covid-19 safety protocols
Covid-19 PCR analysis
Environmental and engineering controls

PROGRAM

1. **PCR testing for airborne Covid-19 in indoor spaces, e.g. nursing and assisted living residences, factory floors, public transit, airport check-in zones and gates, health care facility waiting rooms, hospitals, meat packing plants, gun ranges, gyms, bars, cafes, restaurants and other public and private buildings.**
2. **Testing for airborne Covid-19 in air handling systems**
3. **Assessment of Covid-19 safety protocols and PPE**
4. **Assessment of environmental and engineering controls**

NOTE: Testing for other airborne pathogens (viruses, bacteria and fungus) are available upon request.
